Planning Graduate Opportunities

HOW Planning is a private consultancy which is playing a leading role in some of the North West's most exciting regeneration and development proposals.

Currently, we have an opportunity for a Graduate Planner based in Manchester City Centre. We are also keen to hear from students looking for work experience as part of their course programme.

In addition to a sound technical knowledge, key qualities will

include excellent communication and presentation skills. The ability to think creatively and possess a strong sense of self motivation are hallmarks of our team approach.

An excellent remuneration package including performance bonus is offered. Written applications please to Gary Halman or Richard Woodford or telephone **0161 835 1333** for a discussion.

**Closing date for applications
Friday 17th September 2010.**
