Careys Close Student Accommodation

Client: CityBlock
Location: Leicester

HOW Planning has once again been appointed by CityBlock, a specialist provider of student accommodation, to prepare an application for a new development on Careys Close in Leicester. The appointment follows HOW's success in securing planning approval for a new 98 bedroom development on a neighbouring site in 2008.

The new applications will be for the demolition of an existing building in a conservation area and full planning permission for a new build property adjacent to the existing development, which was officially opened in September 2009.

Continued...

CityBlock specialise in contemporary, student focussed accommodation in an open plan and secure environment and plans for the next phase of the Careys Close development will include similarly high-spec accommodation. The proposal will contribute much more positively to the conservation area by replacing what is currently a run down, redundant factory building.
