CASE STUDY

April 2010

Kings Hill

Client: Liberty Property Trust UK

Location: Kent

HOW Planning has been appointed by London based developer Liberty Property Trust UK for a scheme in Kings Hill, Kent. HOW will provide planning and retail advice for a series of planning applications for the re-development of the Central Area of Kings Hill, which will comprise a combination of retail, leisure and residential uses.

Central to the new development is the requirement to bring a Grade II listed building back into economic use, forming a focal point to the wider scheme. HOW has been involved with a number of applications involving historical and listed building and will bring this extensive knowledge to the project.

The decision to choose a Manchester based agency for a scheme in Kent demonstrates the importance of expertise and quality of service in delivering specialist schemes such as this.
