## Planning For New Sporting Facility

**Client:** The Grange School  
**Location:** Hartford, Cheshire

HOW Planning has successfully secured planning approval for the development of a major new £1million sporting facility at the Grange School, a leading independent school in Hartford, Cheshire.

Working in conjunction with the school, HOW submitted an application to Cheshire West and Chester Council for a new multi-purpose, all weather sport facility providing facilities for hockey, tennis, netball and athletics. The planning approval will open up a whole new range of possibilities for sporting success at the school.

The Grange School has an outstanding academic record, making it among the most successful co-educational schools in the country, as well as a wide sporting curriculum which will benefit hugely from the new development.
