OUR SERVICES

Established in 2001, HOW is a commercially focussed, dynamic planning consultancy which is owned and managed by Partners Gary Halman and Richard Woodford; who are both recognised as leading advisers in the field.

Operating from offices in central Manchester, HOW now has a team of 15 colleagues, advising clients across the North of England

Planning

The firm's commercial planning work covers all major client sectors: house builders; property companies; financial institutions; developers; landowners and retailers, with planning and development proposals incorporating residential, office/business parks; industrial; leisure; retail, mixed use and infrastructure schemes.

In addition to its core planning work HOW has environmental planning specialists enabling complex environmental assessment work to be carried out; ensuring a fully integrated service in a time when environmental issues are working their way to the top of the agenda. Specialist areas of expertise also include planning for listed buildings and conservation areas and community consultation.

HOW regularly acts as lead consultant, co-ordinating input from a range of other specialist disciplines including highway consultants; legal advisers; architects and master planners; commercial agents and others required to provide a comprehensive approach to complex development proposals and present the client with an integrated planning solution.
